## Pet Services

**STOP FACTORY FARMING DOGS**  
How to find a responsible dog breeder! Visit the breeder and spend time with the dogs mother. Check the area where the mother dog live and where the puppies live. Is it clean? Too many animals could be a red flag. Ask to see vet records for parents and puppies. If you buy a puppy from a pet store or off the Internet, odds are you are supporting an inhumane puppy mill. Consider adopting from a shelter or rescue. More information at Iowa Humane Society and Bailing Out Benji. To check on the breeder of your puppy before buying, go to [lowaagriculture.gov](http://lowaagriculture.gov) go to programs and then animal welfare.
