He would like to see the beginning effective date be the first of the following month when someone is hired. He would also like to have the board approve termination of health insurance date be the end of the month when an employee leaves employment. Motion by Turner, seconded by Kupka to approve new hire health insurance effective dates be the first of the month following when an employee is hired, and termination of health insurance date be the end of the month when an employee leaves Tama County employment. Discussion: Turner asked if this would cost the county anything extra. Greufe stated no. Doland stated these changes would

be nice to attract new hires. All voted aye. Motion carried.

Supervisor Turner stated there are no new updates regarding power over the Ethernet for the new phone system. Turner motioned to table any action regarding power over the Ethernet, seconded by Knebel. Discussion: None. All voted aye. Motion carried.

Motion by Knebel, seconded by Turner to approve the following resolution to repeal Tama County Ordinance VI.5 (6.5) Wind Energy Conversion Assessment Ordinance. Discussion: Knebel stated she has been doing a lot of research and reaching out to legislation and other counties and there are two options. You either have the ordinance or you don't have the ordinance. If you have the ordinance, it is up to 30% max by year seven and the assessment value never changes. When a wind farm repowers, the assessment doesn't change but we would still get the 30%. Once the TIF is paid down in six years we will get that assessed value. The other method would be the utility replacement tax. The challenges with that are the Department of Revenue will not give you the exact formula and it is proprietary to what the wind company is actually generating is what gets paid on taxes and bypasses the local assessor and goes to the state who then distributes it. There are a lot of gaps in that. Knebel stated neither way is the best option. She would like to work with legislators to get a better option. She feels the board should not repeal the current ordinance that is in place. Turner stated he agreed, and the board needs to make sure the county is being well cared for. He doesn't feel anything should be subsidized. It isn't fair to the rest of the taxpayers. Doland stated he also did some research. If you go to a production tax the energy can be shipped out. That is a way to keep their cost down. In 2013 when wind energy became a little more popular if the ordinance didn't get repealed wind turbines couldn't cash flow themselves, so the other ordinance had to be adopted that we are under now. The federal government and now the state government has given tax credits to wind and solar companies, and it makes it to where we are losing money if we adopt this resolution. He would like to work with legislators to get back to the original formula to generate more money. At this time this resolution would not be advantageous for the county. Knebel stated after this had been placed on the agenda, she learned that Madison County did repeal this and after they repealed the legislation changed and made it so they wouldn't bring in a 100% of the property taxes. When someone changes then it changes at the state. Madison County still has 10 years before it would go into effect.
