visit [stophiviowa.org](http://stophiviowa.org)

talk

Talk with your partner **before** having sex.  
Talk about **when** you were last tested & suggest getting tested together.

Talk to your healthcare provider about your sex life. Ask them about  
HIV and STI testing—including **what tests** you need and **how often**.

test

**Get tested!** It's the only way to **know for sure** if you have HIV or an STI.

Many STIs, including HIV, **don't cause any symptoms**, so you could  
have one and not know.

If you're not comfortable asking your regular provider for an HIV or STI  
test, find a clinic that provides free or low-cost confidential testing.

treat

HIV and all other STIs are **treatable**.

If you test positive for an STI, work with your healthcare provider to  
get the right treatment.

If you test positive for HIV, your provider or testing location will  
connect you to treatment & resources!
