Growing Relationships to Maximize Success!

We can stop HIV, Iowa—by protecting our sexual health when we talk, test, treat.

talk	Talk with your partner before having sex. Talk about when you were last tested & suggest getting tested together. Talk to your healthcare provider about your sex life. Ask about HIV & STI testing—including what tests you need & how often.
test	Get tested! It's the only way to know for sure if you have HIV or an STI. Many STIs don't cause symptoms, so you could have one and not know.
treat	HIV & all other STIs are treatable. If you test positive for an STI, work with your healthcare provider to get the right treatment. If you test positive for HIV, your provider or testing location will connect you to treatment & resources!
